

The 2024 USBF membership campaign begins now!

Why join the USBF?

Your membership dues support a cause you believe in, the promotion of a game you love and want to share with others. Your USBF membership support is directed to the promotion of bocce in the U. S. through education about the sport of bocce, volunteers and other support for competitive bocce and charity-related events, promotion of bocce as an Olympic sport and support to U. S. players representing USBF in world championships and other international competitions.

How is USBF promoting Bocce?

- Encourages bocce as a fun activity for all ages and skill levels, including families, organizational team building, students, professional athletes, Special Olympics participants, and seniors.
- Offering tournaments to improve skills through competition. Local clubs affiliated with the USBF organize and advertise tournaments open to players throughout the country. The annual USBF National tournament, held in June, is a great competition and an opportunity to compete against players from many US locations.
- Each USBF sector has CBI precision shooting mats for development of shooting skills and use in standardized shooting competitions, some of which are certified allowing athletes to set nationally and potentially world records.
- Postings of club tournaments, tournament results, and photographs of activities and events are provided at USBF.US, USBF Western Sector.org and Facebook (@USBocceFederation).
- USBF electronic newsletters, which contain articles by members and updates from the USBF President, share information about everything bocce—players, equipment, courts, and events in different sectors of the US and abroad.
- The USBF provides a path and mentoring to achieve the elite player level for world class players. Athletes have qualified to compete at International Volo and PRV events in Turkey, Uruguay, Italy and France.

If you want to promote bocce as a sport and the fellowship that bocce brings to players of all ages and abilities, please encourage others to become members of the USBF.
